Certificate Authorities:

www.thawte.com

The screenshot shows a Microsoft Internet Explorer browser window with the address bar displaying <http://www.thawte.com/certs/server/contents.html>. The page title is "Server Digital Certificate Services - Microsoft Internet Explorer". The browser interface includes a menu bar (File, Edit, View, Go, Favorites, Help) and a toolbar with icons for Back, Forward, Stop, Refresh, Home, Search, Favorites, History, Channels, Fullscreen, Mail, and Print. The page content features a navigation menu on the left with links such as Home, Web Server Certs, Overview, Buy a Server Cert, Renew a Certificate, 3.x Root Rollover, Required Documentation, Real-Time Status Page, Browser Compatibility, Free Test Certificates, Changing cert before issue, and Private Key Loss. The main content area is titled "Web Server Certificates" and includes three columns of text with links for purchasing, renewing, and checking the status of certificates, as well as information about support, root rollovers, and hosting partners.

Web Server Certificates

Request A Server Cert
[Purchase a certificate](#) for your secure web server. Our certs work with more than 97% of all the browsers out there, and only cost **\$125**. We accept payment in many currencies, and have local representatives in 20 countries.

Renew a Server Cert
[Renew](#) a server certificate that is due to expire this month. Renewal costs **\$100**. You can only renew if nothing needs changing. If you want to change the contents of your cert or the contact people, please submit a new request.

Status Check
[Check on the status](#) of your certificate request using our real-time status page. You will need your request code, or use [NLGREE1](#) for a demo. You will also need your privacy password if you gave one during the enrollment process.

Support and FAQ's
[Answers to the questions](#) we get every day. Please check this out before mailing us. If you mail us with an FAQ we'll simply respond with a pointer to this page!

Navigator 3.x and IE 3.x Root Rollover
The Thawte Navigator 3.x roots have expired. [Here](#) you will find links to information for users and webmasters about the rollover process and how best to manage it.

Hosting Partners
Thawte has a reseller/partner program for ISP's and hosting companies called the Hosting Partner Program. [Find out more!](#)

READY TO ENCRYPT YOUR WEB SERVER COMMUNICATIONS?
Enroll for a Secure Server ID for SSL now!

Current Members
[Click Here to Renew your ID](#)

Protect your site with a VeriSign Secure Server ID:

Strong Security 
Your server software is already enabled for SSL (secure socket layer) - all you need is a Secure Server ID to activate the strongest encryption available today.

Proof of Identity

Your Secure Server ID is unique to your URL, assuring visitors of your site's authenticity. Free membership in our Authentic Site Program lets you display that fact.

Peace of Mind
Your Server ID comes with VeriSign's NetSure Protection Plan which provides up to \$100,000 of protection against economic loss due to theft, impersonation, corruption, or loss of use of an ID.

Choose your Digital ID

A Class 1 Digital ID is suitable for securing correspondence tied to your e-mail address. A Class 2 Digital ID provides greater authenticity since it is tied to your actual name and personal identity. Choose the type of Digital ID that best suits your needs.

If you want a Digital ID to send secure e-mail from an e-mail package other than Microsoft Outlook Express or Netscape Messenger please [click here](#).

Class 1 Digital ID:

- Authenticates your e-mail address
- Automatic listing in our public directory and easy lookup of anyone else's Digital ID
- US \$1,000 of [NetSureSM](#) protection against economic loss caused by corruption, loss, or misuse of your Digital ID
- Free revocation and replacement if your Digital ID is lost or corrupted

US \$9.95 per year, or free 60-day trial edition

Enroll Now

Class 2 Digital ID: (US and Canada only)

- Authenticates your name and personal identity for added security
- Automatic listing in our public directory and easy lookup of anyone else's Digital ID
- US \$25,000 of [NetSureSM](#) protection against economic loss caused by corruption, loss, or misuse of your Digital ID
- Free revocation and replacement if your Digital ID is lost or corrupted

US \$19.95 per year
